cytoplasmic translation						regulation of
cytoplasmic translation	amide metabolic process		aspartate family amino acid biosynthetic proces	trans	plasmic slational tiation	translational fidelity regulation of translational fidelity
			organonitrogen compound metabolic process	maturation of 5.8S rRN.		metabolic process
	cellular nitrogen compound biosynthetic process	rRNA metabolic process	organic acid biosynthetic process	trans	plasmic slational ngation	SRP-dependent cotranslational protein targeting
peptide biosynthetic process			ribosomal large subunit biogenesis	sulfur amino		to membrane, translocation
	maturation of LSU-rRNA	organic substance biosynthetic process		ne expression acid metabolic	detoxification	
			cellular metabolic process	glutamate biosy	nthetic process	detoxification
				glutamate biosynthetic process
